MK-PASSBIT

Spacer piece for water meters

Application

Mätarkontroll's MK-PASSBIT spacer piece in POM acetal plastic for water meters with connection DN15 (R20) and length 110 mm or 80 mm, and for DN20 (R25) with length 190 mm.

As an alternative to plastic, the spacer is also available in dezincification-resistant brass for DN15 (R20, length 110 mm) and DN20 (R25, length 190 mm). DN15 corresponds to water meters with Q3=2.5 (Qn 1.5) and DN20 to water meters with Q3=4 (Qn 2.5).

Features and benefits

- Available in POM acetal plastic or dezincification-resistant brass
- For DN15 (R20) and DN20 (R25)
- Lengths 80, 110 and 190 mm
- Pressure rating PN16

Technical specification

Material	POM acetal plastic or dezincification-resistant brass
Connection	DN15 (R20), DN20 (R25)
Length	80, 110 mm (DN15), 190 mm (DN20)
Pressure rating	PN16
Temperature range	Max 90 °C (plastic), max 120 °C (brass)
